DIPLOMA IN LANGUAGE SPEECH THERAPY (DLST)

Would you like to help people to communicate – Language Speech Therapy teach you more than just words!

SALIENT FEATURES

- Students are trained to be a part of special schools for people with cerebral palsy, schools for the mentally disabled, and the deaf.
- The course is intended to impart skills relevant to hearing, language, and speech as therapies.
- The course enables the candidates after completion of the course to be self-employed.

CAREER OPPORTUNITIES

- They will be ideally suited to work at the district level & below levels and rural health centers concerned with the speech-related ailments.
- They can be included as trained Rehabilitation personnel under State/Central health care and rehabilitation systems.
- They shall be designated as "Speech and Hearing Technicians" who may find openings in hearing aid and other instrument manufacturing/dispensing centers.
- The course enables the candidates to be self-employed. The course provides the base for gaining lateral entry into the Bachelor of Audiology and Speech-Language Pathology [BASLP] program or an equivalent program.

Duration: Two Years with an Internship

ABOUT THE PROGRAM

It is a two-year program comprising of four semesters. This program is aimed at training lower-level functionaries in the area of hearing, language, and speech. The program is designed as a comprehensive and practical oriented program. The program's main objective is to generate Speech and Hearing Technicians to take up routine clinical work of assessment and therapeutic management for various speech, language, and hearing disorders at the village, district, town, and city levels. It also aids in facilitating higher studies in the fields of the allied health sector.
